**2. SERVICES AND PRICING**  
Customer orders the Services marked below. Optional Services may be added only during the Election Period under Section 4.

| Selection                           | Service                                       | Description                                                                                                                                                            | Annual Fee |
|-------------------------------------|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <input type="checkbox"/>            | SERVICE A - U.S. Core Infrastructure Platform | Hosted infrastructure operations platform for Customer's U.S. business, including configuration, implementation, onboarding and production access                      | \$50,000   |
| <input checked="" type="checkbox"/> | OPTION B - Predictive Grid Analytics          | Activation and configuration of predictive analytics and operational forecasting functionality within Service A, including standard dashboards and model configuration | \$25,000   |
| <input type="checkbox"/>            | OPTION C - Canadian Operations Deployment     | Extension of Service A to Customer's Canadian operations, including environment configuration, onboarding and production support                                       | \$45,000   |
| <input type="checkbox"/>            | OPTION D - 24/7 Managed Response & Resilience | 24/7 monitoring, alert triage, incident coordination and resilience support for environments covered by Service A                                                      | \$55,000   |

Initial Annual Fee: \$50,000. All fees are stated in U.S. dollars and exclude applicable sales and use taxes.

**3. TERM AND SERVICE COMMENCEMENT**  
The initial service term begins on September 21, 2026 and continues for twelve (12) months. Service A will be scheduled for production commencement on September 21, 2026. Any Optional Service timely elected under Section 4 will be scheduled to commence on September 21, 2026 and will run concurrently with the initial service term unless the Parties agree otherwise in writing.

**4. OPTIONAL SERVICES - ELECTION PERIOD**  
Provider will reserve the pricing and implementation capacity shown in Section 2 for Options B, C and D through 12:00 p.m. Central Time on September 18, 2026 (the "Election Period") so that any timely elected Optional Service may be included in the September 21 deployment.  
During the Election Period, Customer may add one or more Optional Services by delivering a written election from Customer's Authorized Representative that clearly identifies the Optional Service or Services elected. A written election may be made by email or by transmitting a copy of this Order Form with the applicable additional selection box or boxes marked.  
An election delivered by email, whether contained in the email body or transmitted as an attachment, must bear the Authorized Representative's typed name or customary email signature block, intended to authenticate the election. Provider may begin provisioning an Optional Service upon receipt of the applicable written election.

**5. IMPLEMENTATION**  
Following execution of this Order Form, Provider will begin implementation planning for Service A. Provider and Customer will coordinate access, technical prerequisites and deployment activities through their designated project teams.
